

FRISWELL'S PICTURE GALLERY LTD

are proud to present works by

ALBERT THOMAS PILE

Born 1882- Died 1981 England

This set of pen & wash drawings are part of a collection of twenty two by Albert Thomas Pile, each notated on the reverse with the place, date & time.

The quality of line is consistent throughout his life, strong & sure, and without hesitation.

The drawings date from around 1961 and are all scenes of Coventry with the old and new Cathedrals as his focus.

A long and productive life, recording the images that he came into contact with, not pure myopic nostalgia, for he recorded some modern buildings as well, but with an honesty of draftsman ship.
